

## **Skyrunning Manufacturers Pool Regulations**

### **1. Criteria for becoming a Manufacturers Pool member:**

- 1.1 The manufacturer produces at least one product /material used or destined for use in skyrunning and multisport mountain competitions
- 1.2 The manufacturer is registered as a company in their country
- 1.3 Candidates must send an application form to the ISF Technical Commission and, on acceptance, pay the relevant fee

### **2. Admission**

Products will be assessed by the ISF Technical Product Commission. The ISF Board reserves the right to veto a product for incompatibility with the image of the sport. Pool members can vote for the exclusion of a member for similar reasons

### **3. Commissions' tasks**

The ISF Technical Product Commission will execute the following tasks:

- 3.1 Review the list of products of each member company
- 3.2 Draw up a profile of each company
- 3.3 Describe and list applications of products suitable for skyrunning
- 3.4 Propose new products and develop collaboration

### **4. The members constitute the Manufacturers Skyrunning Pool.**

Each member has the right to:

- 4.1 Appeal and be consulted on all matters concerning their products
- 4.2 Make notes, recommendations or communicate with the ISF Technical Product Commission and the ISF Board
- 4.3 Be informed about all discussions and decisions of the ISF Technical Product Commission and to receive aggregate statistics about skyrunning

### **5. Legal form**

The Manufacturer's Pool will be an advisory body of the ISF Technical Commission according to art. 33 of the ISF Statutes and will be accepted automatically if all the admission criteria are met.
